Research Project

Indicate which research project this report is for.

--

Outcomes based on evaluation criteria

Evaluation Criteria

Describe the evaluation criteria to be used.

--

Results

Describe the results of the evaluation. If more than one standard or product was included in the evaluation, provide comparative results.

--

Recommendation(s)

Please choose the appropriate recommendation and provide details or justifications as required.

YES – change the domain architecture and associated documents

Provide the exact text of the proposed change.

Domain architecture principles

--

Standards and/or product standards tables

--

Domain architecture best practices/guidelines

--

YES – but need to conduct a proof of architecture assessment prior to final decision

--

NO – take no action at this time, consider in the future, *etc.*

Please select a reason and then provide a brief explanation for that choice.

High risk, immature – continue tracking

--

Needs more “paper” evaluation

--

Inconclusive results of comparative evaluation

--

Inappropriate or negative evaluation

--

Other (specify)

--

Impact Assessment

Describe the impacts on the following areas should the recommended changes be implemented (use all that are appropriate).

Infrastructure (patterns, components, services)

--

Impacts on other domain architectures

--

Existing or proposed projects, RFPs, SOWs, transition planning, *etc.*

--

Financial (might include TCO)

--

Next Steps

Use this space to describe any next steps or following action that are needed, other than a Proof of Architecture Assessment.

--

Draft - July 2003

Additional Comments
